

Assignment 3 help file

The screenshot shows the 'Battle.Net User Database' application window. It has three tabs: 'User Data', 'Diablo III', and 'Stacraft II'. The 'User Data' tab is active. It contains the following controls:

- Search Username:
- Battletag:
- Diablo 3 key:
- Starcraft 2 key:
- FriendsCount:
- Buttons: 'Delete Player', 'Add new Player', 'Add Key', and 'View All Users'.

The 'Search' button is circled in red. The 'Delete Player' and 'Add new Player' buttons are also circled in red, indicating they are disabled.

This application has only one form but has 3 tabs with different controls

On the main tab (user data)

The user is able to search a user, delete or add a player with the various buttons (the other tabs are disabled until validated). The user affected is the one you typed into the search username box

If the username searched matches one in the database their details are populated into the forms and activating the tabs that were not active. The add key button is also becomes available here if the player lacking a key for a game

The screenshot shows the 'Battle.Net User Database' application window after a successful search. The 'Search Username' field is populated with 'zerabane'. The 'Battletag' field is populated with 'zerabane#3214'. The 'Diablo 3 key' field is populated with 'False'. The 'Starcraft 2 key' field is populated with 'True'. The 'FriendsCount' field is populated with '6'. The 'Search' button is now active and highlighted with a blue border. The 'Delete Player' and 'Add new Player' buttons are also active. The 'Add Key' button is now visible and active. The 'View All Users' button is still present at the bottom.

Battle.Net User Database

User Data | Diablo III | Starcraft II

Average APM	152
Wins	214
Losses	257

Order by: More than:

Show Report

Starcraft tab similar to the diablo tab shows stats for the game and allows you to remove the key. You can also make a report by selecting a field to order the search and then a value the stat has to be better than

This is an example of the reports Format, it is the same for all reports
This is for starcraft 2 showing all players with more than 50 wins

The screenshot shows the 'Battle.Net User Database' window displaying a report of players with more than 50 wins. The report is presented as a table with columns for BattleTag, Best Race, Apm, Wins, and Wins.

BattleTag	Best Race	Apm,	Wins	Wins
zerabane#3214	Protoss	152	214	214
Omnipotent#9764	Zerg	211	565	565
BirdnWom#7654	Terran	67	132	132
