

## Story board for adding a new player and viewing over 100 wins report

1: user selects their current ladder league

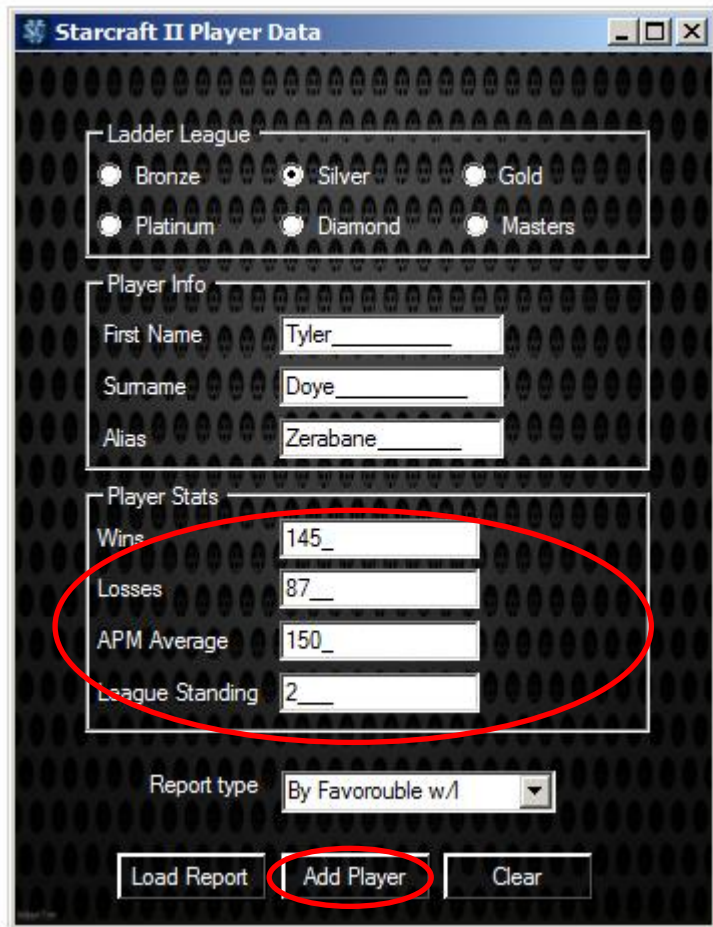

A screenshot of the 'Starcraft II Player Data' form. The 'Ladder League' section is circled in red, showing radio buttons for Bronze, Silver (selected), Gold, Platinum, Diamond, and Masters. Below it are input fields for First Name, Surname, and Alias. Further down are input fields for Wins, Losses, APM Average, and League Standing. At the bottom is a 'Report type' dropdown set to 'By Favourable w/l' and three buttons: 'Load Report', 'Add Player', and 'Clear'.

2: user must enter their user details

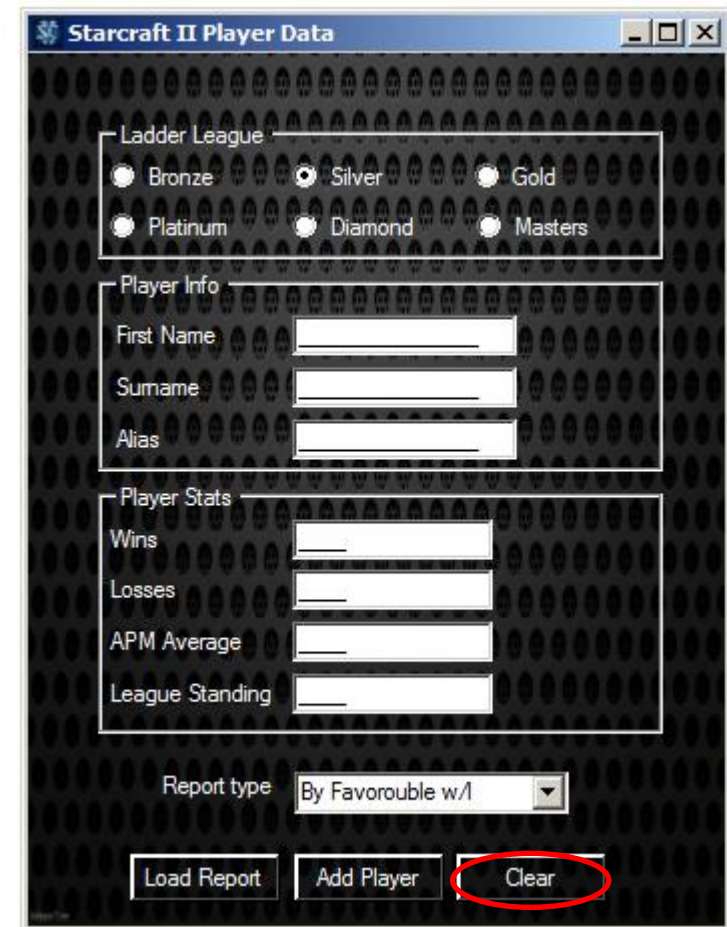

A screenshot of the 'Starcraft II Player Data' form with user details entered. The 'Player Info' section is circled in red, showing 'First Name' as 'Tyler', 'Surname' as 'Doye', and 'Alias' as 'Zerabanel'. The 'Ladder League' section remains the same as in the first screenshot. The 'Player Stats' section and the bottom controls are also visible.

3: User enters their statistics and clicks add player button

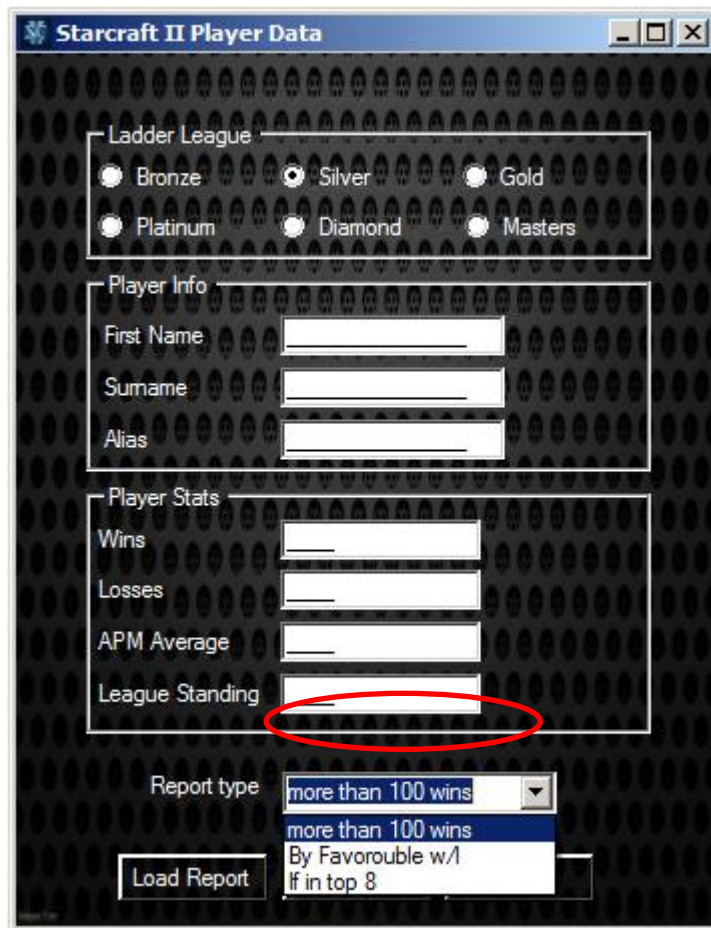

The screenshot shows a web form titled "Starcraft II Player Data". It has three main sections: "Ladder League" with radio buttons for Bronze, Silver (selected), Gold, Platinum, Diamond, and Masters; "Player Info" with text inputs for First Name (Tyler), Surname (Doye), and Alias (Zerabane); and "Player Stats" with text inputs for Wins (145), Losses (87), APM Average (150), and League Standing (2). A red oval highlights the "Player Stats" section. At the bottom, there is a "Report type" dropdown menu set to "By Favourable w/l" and three buttons: "Load Report", "Add Player" (highlighted with a red oval), and "Clear".

4: user clears the text fields by clicking clear button

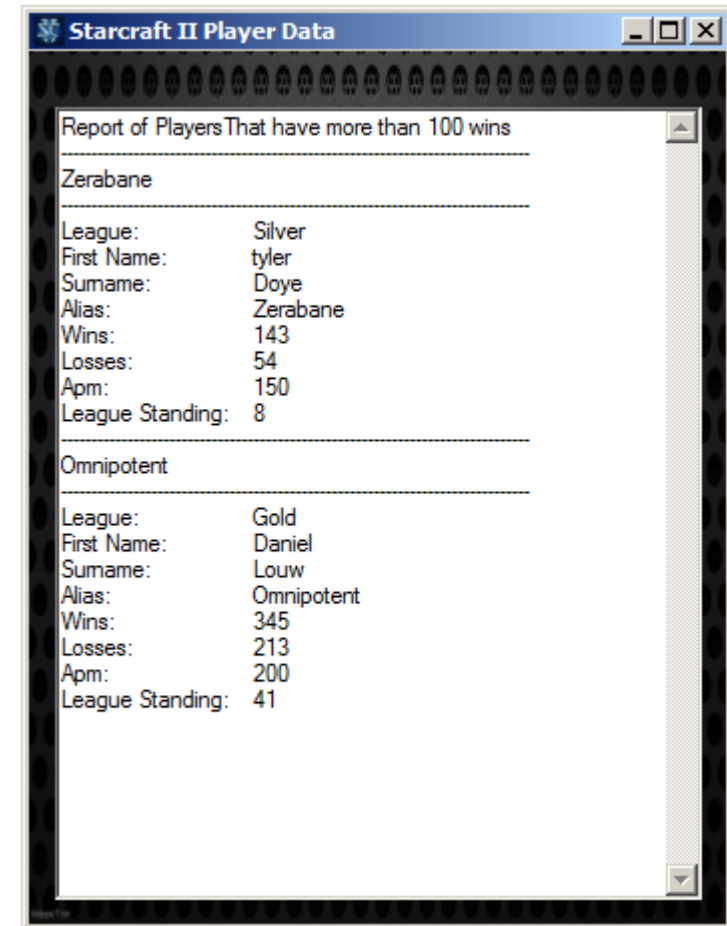

The screenshot shows the same "Starcraft II Player Data" form, but all text input fields are now empty. The "Ladder League" section remains the same with "Silver" selected. The "Player Info" section has empty fields for First Name, Surname, and Alias. The "Player Stats" section has empty fields for Wins, Losses, APM Average, and League Standing. A red oval highlights the "Clear" button at the bottom right of the form.

5: user will select a report type, the report will filter the users to a certain criteria and clicks the load report button

The image shows a software window titled "Starcraft II Player Data". It contains three main sections: "Ladder League" with radio buttons for Bronze, Silver (selected), Gold, Platinum, Diamond, and Masters; "Player Info" with text input fields for First Name, Surname, and Alias; and "Player Stats" with text input fields for Wins, Losses, APM Average, and League Standing. The "League Standing" field is circled in red. At the bottom, there is a "Report type" dropdown menu showing "more than 100 wins" (selected), "more than 100 wins", "By Favourable w/l", and "If in top 8". A "Load Report" button is located to the left of the dropdown.

6: After clicking load report the selected report shows

The image shows the same "Starcraft II Player Data" window, but now it displays a report titled "Report of Players That have more than 100 wins". The report lists two players: Zerabane and Omnipotent. Each player's details are shown in a structured format with labels and values.

Zerabane	
League:	Silver
First Name:	tyler
Surname:	Doye
Alias:	Zerabane
Wins:	143
Losses:	54
Apm:	150
